Work Experience

Designation: Designer

Company: Tata Consultancy Services

Duration: 17th Nov 2020 - 27th August 2021

Job Profile: During my tenure as a Trainee at Tata Consultancy Services, I primarily served as a Front-End Designer. My main responsibility was contributing to the development of the basic and beta versions of the GE (General Electric) tool.

Key Responsibilities :

- **Project Work:** I actively participated in projects that involved utilizing technologies such as JavaScript, React, HTML, and CSS.
- **Front-End Design:** My role focused on the design aspects of the user interface, ensuring a seamless and visually appealing experience for end-users.
- **GE Tool Development:** Specifically, I played a key role in the development of the basic and beta versions of the GE tool, contributing to its initial stages and testing phases.
- **Technology:** Proficiently worked with JavaScript, React, HTML, and CSS to create responsive and user-friendly front-end designs.

Designation: UI Designer & Product Manager

Company: Deep Thought

Duration: 28th April 2023 - 28th November 2023

Job Profile: As an intern at Deep Thought, I served as a UI Designer and Product Manager, contributing to diverse projects within the organization.

Key Responsibilities

- **UI Design:** I actively participated in designing various projects, with a particular focus on a recruiting site dedicated to facilitating the selection process for company candidates.
- **Product Management:** In addition to my design role, I took on responsibilities as a Product Manager, overseeing the development and functionality of projects to ensure alignment with organizational goals.
- **Dashboard Development:** I played a significant role in a project dedicated to designing and implementing a dashboard for the company's site, enhancing user experience and providing valuable insights for efficient navigation.
